Suitable for all

BX260

Perfect design
for any façade

Enjoy a cool and stylish space...

With its small dimensions the BX260 awning can be perfectly integrated into any façade. The special construction with wide wall brackets allows the awning to be fitted onto practically any surface.

Made-to-measure fabrics

Each awning has a high-quality acrylic fabric with special treatment that leaves it mould and dirt resistant. This keeps the fabric looking clean and bright for many years. With an exceptionally wide choice of colours and designs (blocks, fancy stripes...), it will add the finishing touch to your home.

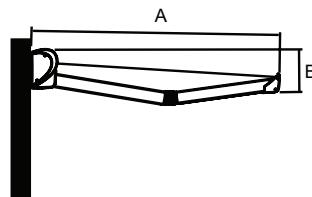

Seamless integration with your home

The BX260 has a fully closed box with the benefit that the awning is also suitable for places that are exposed to the rain or wind and your fabric stays looking great for much longer.

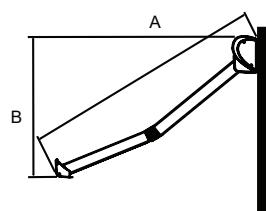

Wide range of colours and styles....

Features BX260:
