SUN & UV PROTECTION

Protection all
year round

GLARE BLOCKING

Enjoy the view

HEAVY WEIGHT

Designed to perform

ADAPTABLE SHADE

Retract when
you don't need it

SIENA® ADVANTAGE

The Italian inspired Siena® Folding Arm Awning (FAA) family of products has a pedigree going back 20+ years and is the ideal performer in the harsh Australian environment.

Tried and tested in Australia for years, its unique design has many advantages including:

- » Unique 8-link, stainless steel arm chain, superior to most currently on the market. Thicker, stronger chain engineered for peace-of-mind arm strength.
- » Heavy-duty internal arm springs ensure noticeably greater arm and fabric tension for a smooth taut fabric skin.

With endless options available the Siena® FAA range has:

- » One of the largest range of spans from 2m to 15m wide with projections up to 4m.
- » With a pitch range set at install from 0-90°, any solution from horizontal to vertical is possible.
- » With customer control pitch options from 0-45° on select models, user-friendly pitch adjustment is possible.
- » Designed for a variety of installs from face, fascia, roof, eave, to top fit.

With front rail gutters standard on all models and aluminium extruded pelmet options available, the Siena® FAA family is the ultimate product offer for a premium look and result.

COLOURS AVAILABLE

With its sleek design and smooth motion its the benchmark for what folding arm awnings should be. Affordable, robust, wide span and with options including adjustable pitch control, front rail extension and extruded aluminium pelmet.

SIENA®	WIDTH	PROJECTION	INSTALL PITCH ADJUSTMENT 0-90°	PITCH CONTROL 0-45°	EXTRUDED PELMET	FRONT RAIL EX'SION	STABILISING POLES	CONTROL MECHANISM	INSTALL OPTIONS	COLOURS
